Yasmina Diab

Areas of Speciality

- Eating disorders and disordered eating in children, adolescents and adults.
- Management of PCOS, endometriosis, perimenopause
- Fertility support
- Antenatal nutrition support
- Gut related issues
- Weight management with a focus on creating a postitive eating enviroment

Eating Disorder Management

Yasmina is an Eating Disorder Credentialed Dietitian and works in collaboration with clients and their families in a compassionate manner. For individuals with disordered eating behaviours, Yasmina provides psychoeducation, skills, tools and support to build a healthy relationship with food and body acceptance.

Yasmina provides treatment for children, adolescents and adults living with a diagnosable eating disorder. She accepts Eating Disorder Care Plans.

Yasmina has a strong knowledge of Family Based Therapy, acceptance and commitment therapy and CBT-ED and actively complements these modalities through her treatment approach.

Yasmina provides a safe, respectful and validating environment for individuals and their families and works in a true partnership to achieve negotiated outcomes
